Michelle R. McManus Equilon Enterprises LLC TSP 1340, P. O. Box 2099 Houston, TX 77252-2099

Re: 063-12398-00004

Administrative Amendment to FESOP 063-5123-00004

Dear Ms. McManus:

Equilon Enterprises LLC was issued a federally enforceable state operation permit (FESOP) on December 13, 1996 for a fuel storage and distribution terminal located at 10470 E. County Road 300 North, Clermont, IN 46234. A letter requesting a revision was received on June 21, 2000. The request was made to add denatured ethanol to the fuels at the terminal. Pursuant to the provisions of 326 IAC 2-8-10 the permit is hereby administratively amended as follows:

A.2 <u>Emission Units and Pollution Control Summary</u>

The stationary source consists of the following emission units and pollution control devices:

- a) Four (4) petroleum products storage tanks, known as Tanks #1 #4, capacity: 30,000 barrels, each.
- b) Two (2) petroleum products storage tanks, known as Tanks #5 and #6, capacity: 80,000 barrels, each.
- c) One (1) petroleum products / denatured ethanol storage tank, known as Tank #7, capacity: 42,000 gallons.
- d) Three (3) petroleum products storage tanks, known as Tanks #8 10, capacity: 30,000 gallons, each.
- e) One (1) petroleum products storage tank, known as Tank #11, capacity: 10,000 gallons.
- f) One (1) truck loading rack, known as #12, equipped with a flare, capacity: 66,000 gallons per hour of gasoline and 33,000 gallons per hour diesel **or denatured ethanol**.

D.2.1 Volatile Organic Compound

- a) The total VOC emissions <u>from the entire source</u> shall not exceed 8.25 tons per month. Therefore, the requirements of 326 IAC 2-7 do not apply.
- b) The vapor control system and transports shall be subject to the conditions of 326 IAC 8-4-9; Leaks from petroleum refineries; monitoring; reports.
- c) Pursuant to the New Source Performance Standards (326 IAC 12) (40 CFR 60.500 through 60.506, Subpart XX), emissions from the vapor collection system are limited to no more than 35 milligrams of total organic compounds per liter of gasoline loaded. This limit also satisfies the 80 milligrams per liter of VOC to the atmosphere limit of 326 IAC 8-4-4, Bulk Gasoline Terminals.

d) The total throughput of gasoline, **denatured ethanol** and diesel oil through the loading racks shall not exceed 860,240,000 gallons per 12-month rolling period.

Furthermore, the facility description in Section D.1 is hereby amended as follows:

Four (4) petroleum products storage tanks, known as Tanks #1 - #4, capacity: 30,000 barrels, each.

Two (2) petroleum products storage tanks, known as Tanks #5 and #6, capacity: 80,000 barrels, each.

One (1) petroleum products **/ denatured ethanol** storage tank, known as Tank #7, capacity: 42,000 gallons.

Three (3) petroleum products storage tanks, known as Tanks #8 - 10, capacity: 30,000 gallons, each.

One (1) petroleum products storage tank, known as Tank #11, capacity: 10,000 gallons.

The facility description in Section D.2 is amended as follows:

One (1) truck loading rack, known as #12, equipped with a flare, capacity: 66,000 gallons per hour of gasoline and 33,000 gallons per hour of diesel **or denatured ethanol**.

All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this amendment and the following revised permit pages to the front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Allen R. Davidson at (800) 451-6027, press 0 and ask for extension 3-5693. or dial (317) 233-5693.

Sincerely,

Paul Dubenetzky, Chief Permits Branch Office of Air Management

Permit Reviewer: MES

SECTION A

SOURCE SUMMARY

A.1 General Information

The Permittee owns and operates a petroleum storage and distribution source.

Responsible Official: T. J. Rizzoli

Source Address: 10470 E. County Road 300 North, Clermont, Indiana 46234

Mailing Address: P.O. Box 34175, Indianapolis, IN 46234

SIC Code: 5171 County Location: Hendricks

County Status: Attainment for all criteria pollutants

Source Status: Synthetic Minor Source, FESOP Program

A.2 Emission Units and Pollution Control Summary

The stationary source consists of the following emission units and pollution control devices:

- a) Four (4) petroleum products storage tanks, known as Tanks #1 #4, capacity: 30,000 barrels, each.
- b) Two (2) petroleum products storage tanks, known as Tanks #5 and #6, capacity: 80,000 barrels, each.
- c) One (1) petroleum products / denatured ethanol storage tank, known as Tank #7, capacity: 42,000 gallons.
- d) Three (3) petroleum products storage tanks, known as Tanks #8 10, capacity: 30,000 gallons, each.
- e) One (1) petroleum products storage tank, known as Tank #11, capacity: 10,000 gallons.
- f) One (1) truck loading rack, known as #12, equipped with a flare, capacity: 66,000 gallons per hour of gasoline and 33,000 gallons per hour diesel or denatured ethanol.

A.3 Insignificant Activities

This stationary source has not identified any insignificant activities, as defined in 326 IAC 2-7-1(20) and will be updated during the 30-day public notice period.

A.4 FESOP Applicability [326 IAC 2-8-2]

This stationary source, otherwise required to have a Part 70 permit as described in 326 IAC 2-7-2(a), has applied to Indiana Department of Environmental Management (IDEM), Office of Air Management (OAM) for a Federally Enforceable State Operating Permit (FESOP).

SECTION B

GENERAL CONDITIONS

- B.1 <u>General Requirements</u> [IC 13-15] [IC 13-17] (Prior to July 1, 1996: IC 13-7 and IC 13-1-1) The permittee shall comply with the provisions of IC 13-15 (Permits Generally), IC 13-17 (Air Pollution Control) and the rules promulgated thereunder.
- B.2 <u>Definitions</u> [326 IAC 2-8-1]

Terms in this permit shall have the meaning assigned to such terms in the referenced regulation. In the absence of definitions in the referenced regulation, any applicable definitions found in IC 13-11 (prior to July 1, 1996, IC 13-7-2, IC 13-1-1-2), 326 IAC 1-2, and 326 IAC 2-7 shall prevail.

B.3 Permit Term [326 IAC 2-8-4(2)]

This permit is issued for a fixed term of five (5) years from the effective date, as determined in accordance with IC 4-21.5-3-5(f) and IC 13-5-5-3 (prior to July 1, 1996, IC 13-7-10-2.5), of the permit.

- B.4 Enforceability [326 IAC 2-8-6]
 - All terms and conditions in this permit, including any provisions designed to limit the source's potential to emit, are enforceable by IDEM.
 - b) Unless otherwise stated, terms and conditions of this permit, including any provisions to limit the source's potential to emit, are enforceable by the United States Environmental Protection Agency (U.S. EPA) and citizens under the Clean Air Act.
- B.5 <u>Termination of Right to Operate</u> [326 IAC 2-8-9]

The expiration of this permit terminates the Permittee's right to operate unless a timely and complete renewal application has been submitted consistent with 326 IAC 2-8-3(h) and 326 IAC 2-8-7.

- B.6 <u>Severability</u> [326 IAC 2-8-4(4)]
 - a) The provisions of this permit are severable, and if any provisions of this permit, or the application of any provision of this permit to any circumstance, is held invalid, the application of such provision to other circumstances, and the remainder of this permit, shall not be affected thereby.
 - b) Indiana rules from 326 IAC quoted in conditions in this permit are those applicable at the time the permit was issued. The issuance or possession of this permit shall not alone constitute a defense against an alleged violation of any law, regulation or standard.
- B.7 Property Rights or Exclusive Privilege [326 IAC 2-8-4(5)(D)]

This permit does not convey any property rights of any sort or any exclusive privilege.

- B.8 Duty to Supplement and Provide Information [326 IAC 2-8-3(f)] [326 IAC 2-8-4(5)(E)]
 - a) The Permittee, upon becoming aware that any relevant facts were omitted or incorrect information was submitted in the permit application, shall promptly submit such supplementary facts or corrected information to:

Indiana Department of Environmental Management Permits Branch, Office of Air Management 100 North Senate Avenue, P.O. Box 6015 Indianapolis, Indiana 46206-6015

- b) The Permittee shall also provide additional information as requested by IDEM, OAM, to determine the compliance status of the source in accordance with 326 IAC 2-8-5(a).
- c) The Permittee shall furnish to IDEM, OAM, within a reasonable time, any information that the IDEM, OAM may request in writing to determine whether cause exists for modifying, revoking and reissuing, or terminating this permit, or to determine compliance with this permit.
- d) Upon written request, the Permittee shall also furnish to IDEM, OAM, copies of records required to be kept by this permit. For information claimed to be confidential, the Permittee shall furnish such records directly to both the U.S. EPA and IDEM, OAM, along with a claim of confidentiality.

Such confidentiality claims shall meet the requirements of 40 CFR Part 2, Subpart B (when submitting to U.S. EPA) and 326 IAC 17 (when submitting to IDEM, OAM).

B.9 <u>Compliance Order Issuance</u> [326 IAC 2-8-5(b)]

IDEM, OAM may issue a compliance order to this Permittee upon discovery that this permit is in nonconformance with an applicable requirement. The order may require immediate compliance or contain a schedule for expeditious compliance with the applicable requirement.

B.10 Compliance with Permit Conditions [326 IAC 2-8-4(5)(A)] [326 IAC 2-8-4(5)(B)]

- a) The Permittee must comply with all conditions of this permit. Noncompliance with any provisions of this permit is grounds for:
 - 1) enforcement action;
 - 2) permit termination, revocation and reissuance or modification; and
 - 3) denial of a permit renewal application.
- b) It shall not be a defense for the Permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit.

B.11 Certification [326 IAC 2-8-3(d)] [326 IAC 2-8-4(3)(C)(i)]

Any application form, report, or compliance certification submitted under this permit shall contain certification by a responsible official of truth, accuracy, and completeness. This certification and any other certification required under this permit shall state that, based on information and belief formed after reasonable inquiry, the statements and information in the document are true, accurate, and complete.

A responsible official is defined at 326 IAC 2-7-1(33).

B.12 Annual Compliance Certification [326 IAC 2-8-5(a)(1)]

a) The Permittee shall annually certify that the source has complied with the terms and conditions contained in this permit, including emission limitations, standards, and work practices. The certification shall be submitted July 1 to:

Indiana Department of Environmental Management Compliance Data Section, Office of Air Management 100 North Senate Avenue, P.O. Box 6015 Indianapolis, Indiana 46206-6015

and

United States Environmental Protection Agency, Region V Air and Radiation Division, Air Enforcement Branch - Indiana (AE-17J) 77 West Jackson Boulevard Chicago, Illinois 60604-3590

- b) This annual compliance certification report required by this permit shall be timely if:
 - 1) Delivered by U.S. mail and postmarked on or before the date it is due; or
 - 2) Delivered by any other method if it is received and stamped by IDEM, OAM, on or before the date it is due.
- c) The annual compliance certification report shall include the following:
 - 1) The identification of each term and condition of this permit that is the basis of the certification;
 - 2) The compliance status;
 - 3) Whether compliance was continuous or intermittent;
 - 4) The methods used for determining the compliance status of the source, currently and over the reporting period; and
 - 5) Such other facts as IDEM, OAM, may require to determine the compliance status of the source.

B.13 <u>Preventive Maintenance Plan</u> [326 IAC 2-8-4(9)] [326 IAC 1-6-3]

- a) The Permittee shall prepare, maintain and implement operation and Preventive Maintenance Plans as necessary including the following information on each:
 - 1) Identification of the individual(s) responsible for inspecting, maintaining, and repairing emission control devices;
 - 2) A description of the items or conditions that will be inspected and the inspection schedule for said items or conditions;
 - 3) Corrective actions that will be implemented in the event an inspection indicates an out of specification situation;
 - 4) A time schedule for taking such corrective actions including a schedule for devising additional corrective actions for situations that may not have been predicted; and

Third Administrative Amendment 063-12398-00004 Amended by: Allen R. Davidson

Page 8 of 28 FESOP No. F 063-5123-00004

- 5) Identification and quantification of the replacement parts which will be maintained in inventory for quick replacement.
- b) Preventive Maintenance Plans shall be submitted to IDEM, OAM, upon request and shall be subject to review and approval by IDEM, OAM.

B.14 Emergency Provision [326 IAC 2-8-12]

- An emergency, as defined in 326 IAC 2-7-1(12), is not an affirmative defense for an action brought for noncompliance with a federal or state health-based emission limitation, except as provided as follows:
- b) An emergency, as defined in 326 IAC 2-7-1(12), constitutes an affirmative defense to an action brought for noncompliance with a health-based or technology-based emission limitation if the affirmative defense of an emergency is demonstrated through properly signed, contemporaneous operating logs or other relevant evidence that describes the following:
 - 1) An emergency occurred and the Permittee can, to the extent possible, identify the causes of the emergency;
 - 2) The permitted facility was at the time being properly operated;
 - During the period of an emergency, the Permittee took all reasonable steps to minimize levels of emissions that exceeded the emission standards or other requirements of this permit;
 - 4) The Permittee notified IDEM, OAM, within four (4) daytime business hours after the beginning of the emergency occurrence by telephone or facsimile;

Telephone No.: 1-800-451-6027 (ask for Office of Air Management) or,

Telephone No.: 317-233-0178 Facsimile No.: 317-233-5967

5) The Permittee submitted written notice or by facsimile of the emergency to:

Indiana Department of Environmental Management Compliance Branch, Office of Air Management 100 North Senate Avenue, P.O. Box 6015 Indianapolis, Indiana 46206-6015

within two (2) working days of the time when emission limitations were exceeded due to the emergency. The notice shall fulfill the requirement of 326 IAC 2-8-4(3)(C)(ii) and must contain the following:

- A) A description of the emergency;
- B) Any steps taken to mitigate the emissions; and
- C) Corrective actions taken.

The notification which shall be submitted by the Permittee does not require the certification by the "responsible official" as defined by 326 IAC 2-7-1(C)(33).

- 6) The Permittee immediately took all reasonable steps to correct the emergency.
- c) In any enforcement proceeding, the Permittee seeking to establish the occurrence of an emergency has the burden of proof.
- d) This emergency provision supersedes any emergency or upset provision contained in 326 IAC 1-6 (Malfunctions). This permit condition is in addition to any emergency or upset provision contained in any applicable requirement.
- e) IDEM, OAM, may require that the preventive maintenance plan required under 326 IAC 2-8-3(c)(6) be revised in response to an emergency.
- f) Failure to notify IDEM, OAM, by telephone or facsimile within four (4) daytime business hours after the beginning of the emergency shall constitute a violation of 326 IAC 2-8 and any other applicable rules.
- g) Operations may continue during an emergency only if the following conditions are met:
 - 1) If the emergency situation causes a deviation from a technology-based limit, the Permittee may continue to operate the affected emitting facilities during the emergency provided the Permittee immediately takes all reasonable steps to correct the emergency and minimize emissions.
 - 2) If an emergency situation causes a deviation from a health-based limit, the Permittee may not continue to operate the affected emissions facilities unless:
 - A) the Permittee immediately takes all reasonable steps to correct the emergency situation and to minimize emissions; and
 - B) continued operation of the facilities is necessary to prevent imminent injury to persons, severe damage to equipment, substantial loss of capital investment, or loss of product or raw material of substantial economic value.

Any operations shall continue no longer than the minimum time required to prevent the situations identified in clause (B) above.

B.15 <u>Deviations from Permit Requirements and/or Conditions</u> [326 IAC 2-8-4(3)(C)(ii)] Deviations from requirements, (for emergencies see Condition B.14 - Emergency Provision) the probable cause of such deviations, and any corrective actions or preventive measures taken shall be reported to:

> Indiana Department of Environmental Management Compliance Branch, Office of Air Management 100 North Senate Avenue, P.O. Box 6015 Indianapolis, Indiana 46206-6015

within ten (10) calendar days from the date of the discovery of the deviation.

Written notification shall be submitted on the attached Deviation Occurrence Reporting Forms.

[326 IAC 2-8-4(5)(C)] [326 IAC 2-8-7(a)] [326 IAC 2-8-8(a)] [326 IAC 2-8-8(b)] [326 IAC 2-8-8(c)]

- a) This permit may be modified, reopened, revoked and reissued, or terminated for cause. The filing of a request by the Permittee for a modification, revocation and reissuance, or termination, or of a notification of planned changes or anticipated noncompliance does not stay any condition of this permit. [326 IAC 2-8-4(5)(C)]
- b) This permit shall be reopened and revised under any of the circumstances listed in IC 13-15-7-2 (prior to July 1, 1996, in IC 13-7-10-5) or if the commissioner determines any of the following:
 - 1) That it contains a material mistake.
 - 2) That inaccurate statements were made in establishing the emissions standards or other terms or conditions.
 - 3) That this permit must be revised or revoked to assure compliance with an applicable requirement. [326 IAC 2-8-8(a)]
- c) Proceedings by IDEM, OAM, to reopen and revise this permit shall follow the same procedures as apply to initial permit issuance and shall affect only those parts of this permit for which cause to reopen exists. Such reopening and revision shall be made as expeditiously as practical. [326 IAC 2-8-8(b)]
- d) The reopening and revision of this permit, under 326 IAC 2-8-8(a), shall not be initiated before notice of such intent is provided to the Permittee by IDEM, OAM, at least thirty (30) days in advance of the date this permit is to be reopened, except that IDEM, OAM, may provide a shorter time period in the case of an emergency. [326 IAC 2-8-8(c)]

B.17 Permit Renewal [326 IAC 2-8-3(h)]

a) The application for renewal shall be submitted using the application form or forms prescribed by IDEM, OAM, and shall include, at minimum, the information specified in 326 IAC 2-8-3. Such information shall be included in the application for each emission unit at this source, except those emission units included on the trivial or insignificant activities list contained in 326 IAC 2-7-1(20).

Request for renewal shall be submitted to:

Indiana Department of Environmental Management Permits Branch, Office of Air Management 100 North Senate Avenue, P.O. Box 6015 Indianapolis, IN 46206-6015

- b) Timely Submittal of Permit Renewal [326 IAC 2-5-3]
 - 1) The Permittee has a duty to submit a timely and complete permit renewal application. A timely renewal application is one that is:
 - A) Submitted at least nine (9) months prior to the date of the expiration of this permit; and
 - B) Delivered by U.S. mail and postmarked on or before the date it is due; or
 - C) Delivered by any other method if it is received and stamped by IDEM,

Third Administrative Amendment 063-12398-00004 Amended by: Allen R. Davidson

Page 11 of 28 FESOP No. F 063-5123-00004

OAM, on or before the date it is due.

- 2) If IDEM, OAM fails to issue or deny the permit renewal prior to the expiration date of this permit, this existing permit shall not expire and all terms and conditions shall continue in effect until the renewal permit has been issued or denied.
- c) Right to Operate After Application of Renewal [326 IAC 2-8-9] If the Permittee submits a timely and complete application for renewal of this permit, the source's failure to have a permit is not a violation of 326 IAC 2-8 until IDEM, OAM takes final action on the renewal application, except that this protection shall cease to apply if, subsequent to the completeness determination, the Permittee fails to submit by the deadline specified in writing by IDEM, OAM, any additional information identified as needed to process the application.

B.18 Administrative Permit Amendment [326 IAC 2-8-10]

- a) An administrative permit amendment is a FESOP revision that makes changes of the type specified under 326 IAC 2-8-10(a).
- b) An administrative permit amendment may be made by IDEM, OAM, consistent with the procedures specified under 326 IAC 2-8-10(b).
- c) The Permittee may implement the changes addressed in the request for an administrative amendment immediately upon submittal of the request. [326 IAC 2-8-10(b)(3)]

B.19 Minor Permit Modification [326 IAC 2-8-11(a)] [326 IAC 2-8-11(b)(1) and (2)]

- A permit modification is any revision to this permit that cannot be accomplished as an administrative permit amendment under 326 IAC 2-8-10.
- b) Minor permit modification procedures shall follow the procedures specified under 326 IAC 2-8-11(b)(1)(A) through (F).
- c) An application requesting the use of minor modification procedures shall meet the requirements of 326 IAC 2-8-3(c) and shall include the information required in 326 IAC 2-8-11(b)(3)(A) through (D).
- d) The Permittee may make the change proposed in its minor permit modification application immediately after it files such application unless the change is subject to the construction permit requirements of 326 IAC 2-1, 326 IAC 2-2, or 326 IAC 2-3. After the Permittee makes the change allowed under minor permit modification procedures, and until IDEM, OAM takes any of the actions specified in 326 IAC 2-8-11(b)(5), the Permittee must comply with both the applicable requirements governing the change and the proposed permit terms and conditions. During this period, the Permittee need not comply with the existing permit terms and conditions it seeks to modify. If the Permittee fails to comply with its proposed permit terms and conditions during this time period, the existing permit terms and conditions it seeks to modify may be enforced against it. [326 IAC 2-8-11(b)(6)]

B.20 <u>Significant Permit Modification</u> [326 IAC 2-8-11(d)]

- a) Significant modification procedures shall be used for applications requesting permit modifications that do not qualify as minor permit modifications or as administrative amendments.
- b) Any significant change in existing monitoring permit terms or conditions and every relaxation of reporting or record keeping permit terms or conditions of this permit shall be considered significant.

Third Administrative Amendment 063-12398-00004 Amended by: Allen R. Davidson

Page 12 of 28 FESOP No. F 063-5123-00004

- c) Nothing in 326 IAC 2-8-11(d) shall be construed to preclude the Permittee from making changes consistent with 326 IAC 2-8 that would render existing permit compliance terms and conditions irrelevant.
- d) Significant modifications of this permit shall meet all requirements of 326 IAC 2-8, including those for application, public participation, and review by the U.S. EPA, as they apply to permit issuance and renewal.
- B.21 Permit Revision Under Economic Incentives and Other Programs [326 IAC 2-8-11(b)(2)] Notwithstanding 326 IAC 2-8-11(b)(1)(D)(i) and 326 IAC 2-8-11(c)(1), minor permit modification procedures may be used for modifications of this permit involving the use of economic incentives, marketable FESOP's, emissions trading, and other similar approaches to the extent that such minor permit modification procedures are explicitly provided for in the applicable implementation plan (SIP) or in applicable requirements promulgated by the U.S. EPA.
- B.22 Operational Flexibility [326 IAC 2-8-15]
 - a) The Permittee may make any change or changes at the source that are described in 326 IAC 2-8-15(b) through (d), without prior permit revision, if each of the following conditions is met:
 - The changes are not modifications under any provision of Title I of the Clean Air Act:
 - The changes do not result in emissions which exceed the emissions allowable under this permit (whether expressed therein as a rate of emissions or in terms of total emissions);
 - 3) The Permittee notifies the:

Indiana Department of Environmental Management Permits Branch, Office of Air Management 100 North Senate Avenue, P.O. Box 6015 Indianapolis, Indiana 46206-6015

and

United States Environmental Protection Agency, Region V Air and Radiation Division, Regulation Development Branch - Indiana (AR-18J) 77 West Jackson Boulevard Chicago, Illinois 60604-3590

in advance of the change by written notification at least ten (10) days in advance of the proposed change. The Permittee shall attach every such notice to the Permittee's copy of this permit; and

- The Permittee maintains records on-site which document, on a rolling five (5) year basis, all such changes and emissions trading that are subject to 326 IAC 2-8-15(b) through (d) and makes such records available, upon reasonable request, to public review. Such records shall consist of all information required to be submitted to IDEM, OAM, in the notices specified in 326 IAC 2-8-15(b)(1), (c)(1), and (d).
- b) For each such change, the required written notification shall include the following:

- 1) A brief description of the change within the source;
- 2) The date on which the change will occur;
- 3) Any change in emissions; and
- 4) Any permit term or condition that is no longer applicable as a result of the change.

The notification which shall be submitted by the Permittee does not require the certification by the "responsible official" as defined by 326 IAC 2-7-1(C)(33).

c) Emission Trades [326 IAC 2-8-15(c)]
The Permittee may trade increases and decreases in emissions in the source, where the

applicable SIP provides for such emission trades without requiring a permit revision, subject to the constraints in section (a) of this condition and those in 326 IAC 2-8-15(c).

d) Alternative Operating Scenarios [326 IAC 2-8-15(d)]
The Permittee may make changes at the source within the range of alternative operating scenarios that are described in the terms and conditions of this permit in accordance with 326 IAC 2-8-4(7) and subject to the constraints in section (a) of this condition and those in 326 IAC 2-8-15(d).

B.23 Construction Permit Requirement [326 IAC 2-1]

Prior to <u>any</u> change in the operation which may result in an increase in allowable emissions exceeding those specified in 326 IAC 2-1-1 (Construction and Operating Permit Requirements), the change must be approved by the Office of Air Management (OAM).

B.24 Inspection and Entry [326 IAC 2-8-5(a)(2)]

Upon presentation of IDEM identification cards, credentials, and other documents as may be required by law, the Permittee shall allow IDEM, OAM, U.S. EPA, or an authorized representative to perform the following:

- a) Enter upon the Permittee's premises where a FESOP source is located or emissions related activity is conducted, or where records are kept under the conditions of this permit;
- b) Have access to and copy, at reasonable times, any records that must be kept under the conditions of this permit;
- c) Inspect, at reasonable times, any facilities, equipment (including monitoring and air pollution control equipment), practices, or operations regulated or required under this permit;
- d) Sample or monitor, at reasonable times, substances or parameters for the purpose of demonstrating compliance with this permit or applicable requirements; and
- e) Utilize any photographic, recording, testing, monitoring, or other equipment for the purpose of demonstrating compliance with this permit or applicable requirements. [326 IAC 2-8-5(a)(4)]

B.25 <u>Annual Fee Payment</u> [326 IAC 2-8-4(6)] [326 IAC 2-8-16]

a) The Permittee shall pay annual fees to IDEM, OAM, consistent with the fee schedule established in 326 IAC 2-8-16.

Third Administrative Amendment 063-12398-00004 Amended by: Allen R. Davidson

Page 14 of 28 FESOP No. F 063-5123-00004

- b) Failure to pay may result in administrative enforcement action, revocation of this permit, referral to the Office of Attorney General for collection, or other appropriate measures.
- c) The Permittee shall pay the annual fee within thirty (30) calendar days of receipt of a billing by IDEM, OAM or in a time period that is consistent with the payment schedule issued by IDEM, OAM.
- d) If the Permittee does not receive a bill from IDEM, OAM, thirty (30) calendar days before due date, the Permittee shall call the following telephone numbers: 1-800-451-6027 or 317-233-0179 (ask for OAM, Data Support Section), to determine the appropriate permit fee. The applicable fee is due April 1 of each year.

SECTION C

SOURCE OPERATION CONDITIONS

Entire Source

Emissions Limitations [326 IAC 2-8-4(1)]

C.1 Overall Source Limit (326 IAC 2-8)

Pursuant to 326 IAC 2-8, emissions of any regulated pollutant from the entire source shall not exceed 99 tons per 365 day period. Emissions of hazardous air pollutants (HAP) from the entire source shall not exceed 9 tons per 365 day period for any individual HAP of 24 tons per 365 day period of any combination of HAPs. Emissions shall include those from all emission points at the source including those that are insignificant as defined in 326 IAC 2-7-1(20). The source shall be allowed to add insignificant activities not already listed in this permit, as long as the total emissions from the source do not exceed the above specified limits. In the event that any condition or combination of conditions in Section D of this permit differs from the above, the most restrictive limit will prevail.

C.2 Opacity

Pursuant to 326 IAC 5-1-2 (Visible Emissions Limitations), except as provided in 326 IAC 5-1-3 (Temporary Exemptions), visible emissions shall meet the following:

- a) Visible emissions shall not exceed an average of 40 percent opacity in 24 consecutive readings,
- b) Visible emissions shall not exceed 60 percent opacity for more than a cumulative total of 15 minutes (60 readings) in a 6-hour period.

C.3 Open Burning

The Permittee shall not open burn any material except as provided in 326 IAC 4-1-3, 326 IAC 4-1-4 or 326 IAC 4-1-6.

C.4 Fugitive Dust Emissions

The Permittee shall be in violation of 326 IAC 6-4 if any of the criteria specified in 326 IAC 6-4-2 (1) through (4) are violated.

C.5 Operation of Equipment [326 IAC 2-8-5(a)(4)]

- a) All equipment that potentially might emit pollutants into the ambient air shall be properly operated and maintained.
- b) Unless otherwise stated in this permit, all air pollution control equipment listed in this permit shall be operated at all times that the emission unit(s) vented to the control equipment is in operation.
- c) The permittee shall perform all necessary maintenance and make all necessary attempts to keep all air pollution control equipment in proper operating condition at all times.

Testing [326 IAC 2-8-4(3)]

C.6 Performance Testing

Compliance testing shall be conducted on the loading rack thermal incinerator for the volatile organic compounds within 180 days of FESOP issuance. All testing shall be performed according to the provisions of 326 IAC 3-2.1 (Source Sampling Procedures) and by methods in the approved

test protocol. The test protocol shall be submitted to:

Indiana Department of Environmental Management Compliance Data Section, Office of Air Management 100 North Senate Avenue, P.O. Box 6015 Indianapolis, Indiana 46206-6015

at least thirty-five (35) days before the intended test date.

Compliance Monitoring [326 IAC 2-8-5(a)(1)]

C.7 Compliance Monitoring [326 IAC 2-8-4(3)]

Compliance with applicable requirements shall be documented in accordance with the provisions of 326 IAC 2-8-4(3). The Permittee shall be responsible for installing any necessary equipment and initiating any additional monitoring no more than ninety (90) days after receipt of this permit. If due to circumstances beyond its control, this schedule cannot be met, the Permittee shall notify:

Indiana Department of Environmental Management, Compliance Data Section, Office of Air Management, 100 North Senate Avenue, P.O. Box 6015 Indianapolis, Indiana 46206-6015

in writing, with full justification of the reasons for inability to meet this date and a schedule which it expects to meet. If a denial of the request is not received before the monitoring is fully implemented, the schedule shall be deemed approved. The notification shall be submitted by the Permittee does not require the certification by the "responsible official" as defined by 326 IAC 2-7-1(C)(33).

C.8 Maintenance of Monitoring Equipment [326 IAC 1-6]

The Permittee shall perform all necessary maintenance and make all necessary attempts to keep all required monitoring equipment in proper operating condition at all times. In the event that a breakdown of the monitoring equipment occurs, a record shall be made of the times and reasons of the breakdown and efforts made to correct the problem.

The Permittee shall install, calibrate, quality assure, maintain, and operate all necessary monitors and related equipment. Preventive maintenance plans of the monitors shall be implemented. In addition prompt correction, as indicated, shall be initiated within the time frames specified, whenever the parameters monitored fall outside of the indicated values.

C.9 <u>Monitoring Methods</u> [326 IAC 3]

Any monitoring or testing performed to meet the requirements of this permit shall be performed, whenever applicable according to the provisions of 326 IAC 3, or 40 CFR Part 60, Appendix A, as appropriate, unless some other method is specified in this permit.

Corrective Actions [326 IAC 2-8-4(1)] [326 IAC 2-8-5(1)]

C.10 Failure to Take Corrective Action

For each unit for which parametric monitoring is required, appropriate corrective actions as described in the Preventive Maintenance Plan shall be taken when indicated by monitoring information. Failure to take corrective action following an excursion of a surrogate monitoring parameter within the prescribed time will constitute a violation of the permit unless taking the corrective action set forth in the Plan would be unreasonable.

After investigating the reason for the excursion, the Permittee may be excused from taking further corrective action for any of the following reasons:

- a) Providing that prompt action was taken to correct the monitoring equipment, that the monitoring equipment malfunctioned, giving a false reading; or
- b) The Permittee has determined that the parameters established in the permit conditions are technically inappropriate, has previously submitted a request for an administrative amendment to the permit, and such request has not been denied; or
- c) An automatic measurement was taken when the process was not operating; or
- d) The Permittee determines that the process has already returned to operating within "normal" parameters and no corrective action is required.

Records shall be kept of all instances in which the action values were not met and of all corrective actions taken. In the event of an emergency, the provisions of 326 IAC 2-8-12 (Emergency Provisions) requiring prompt corrective action to mitigate emissions shall prevail.

C.11 Actions Related to Noncompliance Demonstrated by a Stack Test

Whenever the results of the stack test performed in conformance with Condition C.6 - Performance Testing, of this permit exceed the level specified in any condition of this permit, appropriate corrective actions shall be submitted to IDEM-OAM within 30 (thirty) days of receipt of the test results. These actions shall be implemented immediately unless notified by OAM that they are not acceptable. The Permittee shall minimize emissions while the corrective actions are being implemented.

A second test to demonstrate compliance shall be performed within 120 days. Failure of the second test to demonstrate compliance may be grounds for immediate revocation of the permit to operate the affected facility.

Record Keeping and Reporting [326 IAC 2-8-4(3)]

C.12 Monitoring Data Availability

All observations, sampling, maintenance procedures, and record keeping, required as a condition of this permit shall be performed at all times the equipment is operating at normal representative conditions. Records shall be kept of the times that the equipment is not operating. If the equipment is operating but abnormal conditions prevail, additional observations and sampling should be taken with a record made of the nature of the abnormality. If for reasons beyond its control, the operator fails to make required observations, sampling, maintenance procedures, or record keeping, reasons for this must be recorded. At its discretion, IDEM may excuse such failure providing adequate justification is documented and such failures do not exceed 5 percent of the operating time in any quarter. Temporary, unscheduled unavailability of staff qualified to perform the required observations, sampling, maintenance procedures, or record keeping shall be considered a valid reason.

C.13 <u>General Record Keeping Requirements</u>

a) Records of all required monitoring data and support information shall be retained for a period of at least five (5) years from the date of monitoring sample, measurement, report, or application. These records shall be kept at the source location and available within one hour upon verbal request of an IDEM, OAM representative, for a minimum of three (3) years. They may be stored elsewhere for the remaining two years providing they are made available within thirty (30) days after written request.

- b) Records of required monitoring information shall include:
 - 1) The date, place, and time of sampling or measurements;
 - 2) The dates analyses were performed;
 - 3) The company or entity performing the analyses;
 - 4) The analytic techniques or methods used;
 - 5) The results of such analyses; and
 - 6) The operating conditions existing at the time of sampling or measurement.
- c) Support information shall include:
 - 1) Copies of all reports required by this permit;
 - 2) All original strip chart recordings for continuous monitoring instrumentation;
 - 3) All calibration and maintenance records:
 - 4) All preventive maintenance and corrective actions that were implemented. Such records shall briefly describe what was done and indicate who did it;
 - 5) Relevant work purchases orders;
 - 6) Quality assurance and quality control procedures;
 - 7) Operator's standard operating procedures;
 - 8) Manufacturer's specifications or their equivalent; and
 - 9) Equipment "troubleshooting" guidance.

C.14 General Reporting Requirements

a) Reports required by conditions in Section D of this permit shall be submitted to:

Indiana Department of Environmental Management Compliance Data Section, Office of Air Management 100 North Senate Avenue, P.O. Box 6015 Indianapolis, Indiana 46206-6015

- b) Unless otherwise specified in this permit, any notice, report, or other submission required by this permit shall be timely if:
 - 1) Delivered by U.S. mail and postmarked on or before the date it is due; or
 - 2) Delivered by any other method if it is received and stamped by IDEM, OAM, on or before the date it is due.
- c) All instances of deviations from any requirements of this permit must be clearly identified

Third Administrative Amendment 063-12398-00004 Amended by: Allen R. Davidson

Page 19 of 28 FESOP No. F 063-5123-00004

in such reports.

- d) Any corrective actions taken as a result of an exceedance of a limit, an excursion from the parametric values, or a malfunction that may have caused excess emissions must be clearly identified in such reports.
- e) The first report shall cover the period commencing the date of issuance of this permit and ending March 31, 1997.

Page 20 of 28 FESOP No. F 063-5123-00004

SECTION D.1 FACILITY OPERATION CONDITIONS

Four (4) petroleum products storage tanks, known as Tanks #1 - #4, capacity: 30,000 barrels,

each.

Two (2) petroleum products storage tanks, known as Tanks #5 and #6, capacity: 80,000 barrels,

each.

One (1) petroleum products storage tank, known as Tank #7, capacity: 42,000 gallons.

Three (3) petroleum products storage tanks, known as Tanks #8 - 10, capacity: 30,000 gallons,

each.

One (1) petroleum products storage tank, known as Tank #11, capacity: 10,000 gallons.

Emissions Limitations [326 IAC 2-8-4(1)]

D.1.1 Volatile Organic Compound

The total VOC emissions from the entire source shall not exceed 8.25 tons per month. Therefore, the requirements of 326 IAC 2-7 do not apply.

D.1.2 Hazardous Air Pollutants

The hazardous air pollutant emissions from the entire source shall be limited as follows:

- a) The amount of any single hazardous air pollutant (HAP) shall not exceed 0.75 tons per month.
- b) The amount of any combination of HAPs shall not exceed 2.00 tons per month.

Therefore, the requirements of 326 IAC 2-7 do not apply.

Compliance

D.1.3 Petroleum Liquid Storage Facilities [326 IAC 8-9]

Storage facilities with capacities of petroleum liquid tanks greater than 39,000 gallons containing VOCs whose true vapor pressure is greater than 1.5 pounds per square inches shall comply with the requirements of 326 IAC 8-9 - Volatile organic liquid storage vessels.

D.1.4 Bulk Gasoline Terminals [326 IAC 8-4-4]

This bulk gasoline terminal is subject to the requirements of 326 8-4-4 and must utilize a vapor collection system and an approved control. The flare complies with this rule which controls emissions to no more than 80 milligrams per liter of VOC.

D.1.5 <u>Leaks from Transports and Vapor Collection Systems; Records</u> [326 - IAC 8-4-9]

This source shall comply with the requirements of 326 IAC 8-4-9 because the source operates a vapor control system.

D.1.6 Preventive Maintenance [326 IAC 2-8-4(9)]

A Preventive Maintenance Plan, in accordance with Condition B.13 of this permit, is required for this facility.

Third Administrative Amendment 063-12398-00004 Amended by: Allen R. Davidson

Page 21 of 28 FESOP No. F 063-5123-00004

Record Keeping and Reporting Requirements [326 IAC 2-8-4(3)]

D.1.7 Volatile Organic Compound (VOC) Usage

The Permittee shall maintain records at the source of the materials used that contain any VOCs. The records shall be complete and sufficient to establish compliance with the VOC usage limits and VOC emission limits established in this permit. The records shall contain a minimum of the following:

- a) The volume in gallons of VOC containing material, including purchase orders and invoices necessary to verify the type and amount used;
- b) The VOC content (weight percent) of each material used; and
- c) The weight of VOCs emitted for each compliance period, considering capture and control efficiency, if applicable.

D.1.8 Hazardous Air Pollutant (HAP)

The Permittee shall maintain records at the facility showing the HAP content of each fuel received or stored.

D.1.9 Quarterly Reporting

A quarterly summary to document compliance with operation condition numbers D.1.1 and D.1.2 shall be submitted to the address listed in Section C - General Reporting Requirements, using the enclosed forms or their equivalent, within thirty (30) days after the end of the quarter being reported.

SECTION D.2 FACILITY OPERATION CONDITIONS

One (1) truck loading rack, known as #12, equipped with a flare, capacity: 66,000 gallons per hour of gasoline and 33,000 gallons per hour of diesel or denatured ethanol.

Emissions Limitations [326 IAC 2-8-4(1)]

D.2.1 Volatile Organic Compound

- a) The total VOC emissions <u>from the entire source</u> shall not exceed 8.25 tons per month. Therefore, the requirements of 326 IAC 2-7 do not apply.
- b) The vapor control system and transports shall be subject to the conditions of 326 IAC 8-4-9; Leaks from petroleum refineries; monitoring; reports.
- c) Pursuant to the New Source Performance Standards (326 IAC 12) (40 CFR 60.500 through 60.506, Subpart XX), emissions from the vapor collection system are limited to no more than 35 milligrams of total organic compounds per liter of gasoline loaded. This limit also satisfies the 80 milligrams per liter of VOC to the atmosphere limit of 326 IAC 8-4-4, Bulk Gasoline Terminals.
- d) The total throughput of gasoline and diesel oil through the loading racks shall not exceed 860,240,000 gallons per 12-month rolling period.

D.2.2 Hazardous Air Pollutants

The hazardous air pollutant emissions from the entire source shall be limited as follows:

- a) The amount of any single hazardous air pollutant (HAP) shall not exceed 0.75 tons per month.
- b) The amount of any combination of HAPs shall not exceed 2.00 tons per month.

Therefore, the requirements of 326 IAC 2-7 do not apply.

Compliance Monitoring Requirements [326 IAC 2-8-5(a)(1)]

D.2.3 Daily Visible Emission Notations

Daily visible emission notations of the flare shall be performed during normal daylight operations. A trained employee shall record whether emissions are normal or abnormal. For processed operated continuously "normal" means those conditions prevailing, or expected to prevail, 80 percent of the time the process is in operation, not counting startup or shut down time. A trained employee is an employee who has worked at the plant at least one month and has been trained in the appearance and characteristics of normal visible emissions for that specific process. The Preventive Maintenance Plan for this unit shall contain troubleshooting contingency and corrective actions for when an abnormal emission is observed.

D.2.4 Thermal Incinerator (Flare)

Pursuant to 326 IAC 8-4-4 the flare shall be in operation at all times the truck loading rack is in operation. The flare shall be interfaced with the loading rack to prevent loading if the flare is not operational. An ultra-violet beam sensor shall detect the flame presence, and an indicator light showing the detection shall be inspected daily.

Third Administrative Amendment 063-12398-00004 Amended by: Allen R. Davidson

Page 23 of 28 FESOP No. F 063-5123-00004

D.2.5 Preventive Maintenance [326 IAC 2-8-4(9)]

A Preventive Maintenance Plan, in accordance with Condition B.13 of this permit, is required for this facility.

Record Keeping and Reporting Requirements [326 IAC 2-8-4(3)]

D.2.6 Volatile Organic Compound (VOC) Emissions

The Permittee shall maintain records at the source of the material throughput that contains any VOCs. The records shall be complete and sufficient to establish compliance with the VOC usage limits and/or VOC emission limits established in this permit. The records shall contain a minimum of the following:

- a) The volume in gallons of each fuel received, including purchase orders and invoices necessary to verify the type and amount used;
- b) The weight of VOCs emitted for each compliance period, considering capture and control efficiency, if applicable; and
- c) The flame presence of the flare.

D.2.7 <u>Hazardous Air Pollutant (HAP)</u>

The Permittee shall maintain records at the facility showing the HAP content of each fuel received or stored.

D.2.8 Quarterly Reporting

A quarterly summary to document compliance with operation conditions numbers D.2.1 and D.2.2 shall be submitted to the address listed in Section C - General Reporting Requirements, using the enclosed forms or their equivalent, within thirty (30) days after the end of the quarter being reported.
